Below are bills pertaining to municipalities that have been introduced. Debate will still continue on many bills on municipal interest and hearings of bills from the other chamber will begin. Changes from the last report are in red.

Court Bills

HB 168 (Ellebracht) - allows county schools to receive the proceeds of fines for municipal ordinance violations heard by an associate circuit judge in the same manner that they currently collect revenue for fines collected for the breach of state laws.

HB 526 (Haffner) - currently, if a Missouri resident is charged with a moving violation and fails to dispose of the charges as ordered without good cause, the court instructs the resident that it will instruct the Department of Revenue to suspend the defendant's driver's license until charges are properly disposed. The court will, as specified in the bill, inform the defendant that it may instruct the Department of Revenue to suspend the defendant's license. If a Missouri resident is charged only with a minor traffic violation and fails to dispose of the charges as ordered and fails to appear on two return dates without good cause, the court will, within 10 days of the failure to comply, inform the defendant that it may instruct the Department of Revenue to suspend the defendant's driver's license until charges are properly disposed. A person whose license is suspended under these provisions will receive limited driving privileges unless the Director of the Department of Revenue finds that the defendant is ineligible for such privileges. General Laws Committee. **Hearing 4/12.**

HB 712 (Ellebracht) - specifies that in a proceeding for a municipal ordinance violation or any other proceeding before a municipal court, a defendant must not be charged any fee for obtaining a police report or probable cause statement. Such police report or probable cause statement must be provided by the prosecutor upon written request for discovery by the defendant. Judiciary Committee. Heard 2/3. Passed Committee 2/24. Referred Rules Committee. Passed Committee 3/31.

HB 1227 (Gray) - specifies that if the court finds that a defendant is indigent or is without sufficient disposable income to pay restitution, court costs, fees, expenses, or fines in whole or in installments over a one-year period, upon motion of the defendant, the court must consider sentencing the defendant to perform community service under conditions as may be established by the court in lieu of paying restitution, court costs, fees, expenses, or fines for all traffic offenses deemed infractions or class D misdemeanors or violations of any ordinance of any political subdivision.

SB 164 (Cierpiot) - currently, if a Missouri resident charged with a moving traffic violation, other than a minor traffic violation as defined by law, fails to resolve the charges prior to trial as provided by law and fails to appear in court, or without good cause fails to pay fines and court costs or adhere to an approved installment plan, the court shall notify the person by mail that the court will order the Director of the Department of Revenue to suspend their driver's license if the charges are not resolved within 30 days. Thereafter, if the person does not timely resolve the charges, the court shall notify the Department of Revenue and the Department shall suspend the driver's license immediately and notify the driver. The suspension shall remain in effect as provided by law. This act specifies that the court may, rather than shall, order the Department of Revenue to suspend the defendant's license. Furthermore, this act permits the same suspension process for minor traffic violations, except that regarding suspensions for failure to appear, it requires that the defendant have failed to appear in court twice rather than once. Where a defendant is charged

exclusively with minor traffic violations, any suspension under the act shall be accompanied by the issuance of a limited driving privilege, as provided by law, unless the defendant is found by the Department of Revenue to be ineligible. Transportation/Public Safety Committee. Heard 3/2. Passed Committee 3/9.

Economic Development Bills

HB 213 (Hill) - if a Community Improvement District fails to timely submit a proposed annual budget to the municipality, adopt an annual budget, or submit an annual report to the municipal clerk or the Department, it will be subject to a fine of \$100 per day, which will be imposed and collected by the Department and paid into the public school fund of the municipality in which the district is located. Ways & Means Committee.

HB 981 (Aldridge) - modifies local tax increment financing projects by limiting such projects to redevelopment areas that are found to be blighted. This act modifies the definitions of "blighted area" and "conservation area" and creates new definitions for "port infrastructure projects", "retail area", and "retail infrastructure projects". This act modifies local tax increment financing projects by providing that a study shall be conducted by a party other than the proponent of the redevelopment plan, which details how the area meets the definition of an area eligible to receive tax increment financing. This act also provides that retail areas, as defined in the act, shall not receive tax increment financing unless such financing is exclusively utilized to fund retail infrastructure projects, as defined in the act, or unless such area is a blighted or conservation area. This act prohibits new projects from being authorized in any Greenfield area. Current law allows districts and counties imposing a property tax for the purposes of providing emergency services to be entitled to reimbursement from the special allocation fund of a portion of the district's or county's tax increment. For projects approved after August 28, 2021, this act modifies such provision to allow reimbursement to ambulance districts, fire protection districts, and governing bodies operating a 911 center providing dispatch services and which impose economic activity taxes for such purposes. SB 147 (Washington) - modifies numerous provisions to TIF laws. Ways & Means Committee.

SB 221 (Beck) - authorizes the State Auditor to audit any TIF redevelopment project in the same manner that he or she may audit any agency of the state. This act also excludes local sales taxes whose revenue is dedicated to education programs or to a fire protection district from the definitions of "economic activity taxes" and "payment in lieu of taxes" for the purposes of funding TIF districts. This act prohibits the implementation of a TIF redevelopment project

without its redevelopment plan receiving approval from the local TIF commission. Ways & Means Committee. Heard 2/25. Passed Committee 4/1.

SB 247 (Arthur) - allows a school district to exclude real property from a proposed tax increment financing redevelopment area if the school district determines that such redevelopment area will have an adverse effect on such school district.
